First name: Liliias

Last name: Jarding, Ph.D.

Organization: Clean Water Alliance

Title: President

Comments: Greetings: Please accept these comments on the Custer Gallatin Forest Plan Revision #50185.

Please make the rivers of northwestern South Dakota that have been negatively impacted by uranium mining priorities for restoration. Please make mining a lower priority activity in the National Forest, below ecosystem protection, maintaining and restoring water quality, and recreation.

I am incorporating the comments of the Western Watersheds Project into my comments by reference.

Thank you.
