Comments: Due to the large amount of wilderness already present in all forest service I see as Alternative E as the only fair solution. It is time to allow people to use the land of many uses for many uses. The only adjustments need made to alternative E to make it the best option is to increase the amount of timber harvesting allowed. Better to get use out of the wood then just letting burn. Also it would make the Forest Service more self efficient. Have money coming in from timber sales would be much better then just spending money on fighting fires.
