Title:

Comments: dear forest service folks.

these are the comments of the Idaho Sporting Congress, Inc. on the draft Custer-Gallatin Forest Plan revision.

We support Alt. D, with the augmentation of including all 2301,000 acres of roadless lands on the Gallatin Range as WSA's. Please ban motorbikes and mountain bikes from the Buffalo Horn roadless area and all other WSA's on the Forest. Please ban mountain biking in the Lionhead roadless area. I have hiked there since 19775, and now the human traffic via mountain bikes is ten times what it was then. The "People Pollution" has greatly diminished the wilderness experience of hiking in Lionhead.

Thank you, sincerely yours, Ron Mitchell P.S. please reduce the size of horse packtrains from 25 animals down to 12, to reduce damage to trails and lakeside areas and meadows.
