Comments: I am writing in support of keeping the Custer gallatin wilderness WILD!

Please retain the wilderness as the wilderness designation is meant to be-these places are of extreme beauty and natural wonder, irreplaceable and not meant to be destroyed.

These places are what makes Montana so glorious. It is our wilderness that defines us!

I truly hope that you listen to the voices who are imploring you to maintain the wilderness and protect these places, keeping and implementing wilderness designation, maintains roadless areas and regions for our beloved wildlife and clean waters. I encourage and support the Custer gallatin forest partnership.

Keep it wild!
