Comments: Hello I'm writing on this matter because it's a personal to me. I have grown up in Montana for 32 years it is truly one of the last best places. I understand people want to preserve it, and if you ask any of the 10s of thousands of snowmobilers that live here and visit every year they would say the same. The way that you are going about it seems to be upside down. The people of Montana rely on the revenue that comes into the small towns in the winter months of the year. The memories that I share with my friends and family when we're up in the mountains is priceless , please take the time and consider what is at stake with your actions that is being taken on this no snowmobile access in these areas thank you.
