Title:

Comments: I am in favor of maintaining areas currently recommended for Wilderness. I have fond memories backpacking in the beartooths, including summiting Granite peak with my 60 year old dad. And i was 22. We crushed it! I've seen and fell in love with the fall colors in the east rosebud creek drainage. I've endured the road to fish (unsuccessfully) Boulder creek. If these lands weren't protected and in public hands, I wouldn't have such fond memories and experiences of our beautiful state. I am in favor of implementing the gallatin forest partnership agreement. I hope to explore those crazy mountains and hope to see those maintained and protected. Thank you Montana.
