First name: Philip

Last name: Gilbert

Organization:

Title:

Comments: I am an elderly and disabled person. Have you filed the impact reports required when you restrict access to my protected group? It is without exception that this type of planning leads to closure of access to the disabled. In my retirement years I enjoy amateur rock hunting. I therefore request that no land status be changed that would restrict my family's ability to access public land by existing road to collect, rocks, mushrooms, etc.
