Comments: Protect the Crazies, the Snowies, the Pryors, and The Judiths from big Corporate ruination and personal enrichment!

We treasure our lands and do not want them raped and left to languish with polluted water and discarded and poison coal and oil refuse! I have lived in North Dakota and watched the people there give away their land and souls for a buck. Montanans are different! We cherish the last best place in America , and we are angry at this ruthless and dishonest administration.

Stop raping our long treasured land! We care!!!
