Title:

Comments: It is my desire that the proposed forest and backcountry that is under review continue to be accessible by all types of modes. I frequent the area regularly and use several type of modes of transportation to access the backcountry and enjoy nature and it's wild side. I wish that my children and their children will be able to enjoy the same freedoms I have to be able to access these areas by the mode of their choosing. I've enjoyed snowmobiling, hiking, dirt biking, mountain biking and snowboarding in these mountains since I was a youngster. It would be a great disservice to our country and it's people to shut down this area to many of those recreational activities.
