Comments: Greetings,

Please do NOT designate "The Lionhead" or Henry's Lake Mountains as recommended wilderness.

I have ridden a mountain bike on several trails in that area. Sheep Creek, Mile Creek, Watkins Creek, Targee Creek, and others. They all were primitive, but each had a unique personality. It was an adventure each time I rode there. I would not have experienced this area if not for the ability to ride a bike on these trails. I look forward to riding there in future summer seasons.

Please manage The Lionhead area as non-motorized backcountry, and allow bicycle travel on the trails.

Thank you.
