Comments: PRYOR MOUNTAINS REVISION PLANS

To whom it may concern.

I recently was made aware of the plans to revise the status of the Pryor Mountain area into possible wilderness or other status. I am strongly opposed to any of the revisions that were posted on the web site, specifically B,C or D. Revision A, which is the plan that the area is currently being governed under is the only acceptable one. I am an active recreational rockhound in my 60's. I cannot get around as well as I could when younger. Any of the proposed changes would limit my recreational access to the Pryor Mountain area. I belong to The Billings Gem and Mineral club and we adhere to the rockhound code of ethics.

Sincerely,

Mark H Lent

Shepherd, Mt.
