Comments: This message may not make a difference but here goes. Iron Mt is enjoyed by the equine community. To have logging in the trail areas would disrupt current trails. Trails would be down for all winter thru spring. Erosion is to be expected and most important our Federal land to ride on would be a mess. The horsecommunity brings a lot of money to the states we live in an visit. Please reconsider some of the areas you plan to log. It seems we are getting pushed out of places to ride. The businesses/horse camps will suffer due to a lack of business the horses bring.
