First name: Seth

Last name: Thompson

Organization: Virginia Department of Game & Inland Fisheries

Title: District Wildlife Biologist

Comments: Please accept this email comment from the Virginia Department of Game and Inland Fisheries (DGIF) regarding the High Knob View Enhancement Project. DGIF fully supports this project as proposed in the letter soliciting comment (file code 1950) dated April 12th 2019. We have no objections to the categorical exclusion or to the exception to the Indiana Bat Secondary Cave Protection Area with small selective timber cuts to meet the project's needs. This project will provide additional foraging opportunity for Indiana Bats.

The benefits to both wildlife and outdoor recreationist are many and are outlined in your proposal.

Thank you for the opportunity to comment.
