Comments: I ride horse trails all over Collins Cove, CC Camp and Mt Roger's. I am not against vegetation controls in these areas as long as you protect or improve the current horse trails. Some of these trails can use clean up in tree removal, overhanging trees/vines, large rock removal and trail widening. I do recommend during these projects you close certain trails to allow for work but not all trails at once until project is completed. Please close sections for work while allowing other sections to remain open for riders and camping. We enjoy the national forests and facilities and do NOT want to have to go to find other places to ride outside our communities. We want our camping feed to stay here to support our forests regions.
