First name: Butch

Last name: Columbetti

Organization: Iron mountain horse camp

Title:

Comments: I understand that the Forest should be managed but from what I've seen so far is a map that doesn't really show anything that would really be done to manage it . I see that there was work done in around 2015 to manage forest and hasn't been maintained since then . If this type of work is to go forward I think it needs to be discussed on exactly how it is to be done . Would need meetings and discussion with everyone affected by this . So far all I see is a map that really doesn't make any sense at all to me as far as management
