Comments: In viewing of this forest plan, and as a goat owner, I would like to suggest that goat packing be included in the activities important to the GMUG NF which are listed on page 8. It would also be best if the ban on page 27 be removed, and the reference to pack goats on page 143 be removed, since pack goats are NOT an example of disease transmission to bighorn sheep. As far as I know, there is not one documented case of a pack goat giving disease to bighorns. Thank you for reading this. I hope my input will be helpful.
