Title:

Comments: Hello, my name is Blake Corzine and I completely disagree with taking away public land from snowmobilers. Some family's strive off being together on the weekend and going snowmobiling. Shoot it made my brother and I way closer than we ever were because of it. We have been to the Grand Mesa and rode, I haven't seen a single action from anyone up there that we deserve to have this taken away from us. For some people that's all they have to look forward to and it's unfair to have that taken away. Thank you.
