On July 17th I hiked with a small group on Little Pass Creek Trail (#563) to an amazing overlook of a pristine valley with the Castle's in the background. I have hiked to many beautiful sights in Gunnison County over the past 16 years. and this ranks right up near the top. I understand that this area is being considered as a part of the West Elk Wilderness expansion. I certainly support this expansion and appreciate all those working to make it happen. Hopefully another Peaceful area protected for future generations.
