First name: Brett

Last name: Wolfe

Organization: Rocky Mountain Sled Conditions

Title: Owner

Comments: I do not support any additional wilderness area, or wilderness area studies. I do not support any more acres of closure to motorized use. I support our existing wilderness areas. I believe the remaining national forest acres that are not designated wilderness, should be available to use for ALL motorized and non-motorized. We need to quit making these "special use"/ "restricted" areas, and have 2 use areas, National Forest and National Forest designated wilderness. If it is not wilderness, it is open to all. Wilderness would not allow motorized use.
