Comments: Snowmobiling has brought a new level of joy to my life and love for Colorado. Since beginning the sport in 2012, I have poured my life and money in to this sport. I chase down adventures and special backcountry moments with my family and friends. Just this year my family has spent \$40,000 on snowmobiles. Snowmobiling is a Pay to Play sport and we enhance the backcountry trail systems with our grooming machines we pay and insure together as a united group. We vacation and bring our money to the tourist destinations around the state. I would not participate in a sport if I thought it was a contributor to disturbing the lands that I love. Please do not take away the joy of snowmobiling for many, please do not cripple your local economy.
