Comments: Crested Butte offers some of the most beautiful sceneries to enjoy the outdoors. I have only ever paddle the Taylor for my ability is not strong enough to go on there steeper cheeks but it's something I aspire to. To be able to be in such a beautiful place and to enjoy it by river is one of the great loves of my life and is something I hope stays for generations to come. Everyone deserves to see these places as pristine and wild as possible.
