Title:

Comments: I am a riverfront landowner on the North Fork of the Flathead River on the North Fork Road, approximately 10 miles north of Pole Bridge. I request that all property rights of private landowners be preserved, including unlimited access to the river for all purposes including recreation. In the event a "use/access permit system" is adopted I request to be "grandfathered" as a landowner on the river and granted all access rights which we currently possess.
