Comments: Please do not log these gorgeous areas. We cant get it back. You will ruin the natural treasure we have in Kentucky in these areas. Stop your greed and protect our forests instead of destroying! If you actually practiced sustainable logging it would be one thing but you hire lazy, greedy loggers to make the most money the fastest and they clear cut and leave messes behind, it is a disgrace! This area around Pine Island is absolutely gorgeous. You will destroy a beautiful hiking area and leave an absolute mess that no one will want to hike in. Hikers bring money to these areas too which no one considers. How does this benefit Kentucky? It does not. It is short-sighted and represents nothing but greed and the money will not benefit anyone here.
