Comments: Logging this would be devastating to many nature lover and families that hike to this waterfall to relax and enjoy their day. Speaking of families many families have been going here for years and want their young ones to enjoy the same satisfaction they have. Another reason to not log it is that it will destroy the tourism in the area because some people go just for that waterfall. They're so many other places that could be logged yet some beautiful place like this is the one to get chosen.
