Comments: My choice and comments are as follows.

I have reviewed all of the Alternatives and choose Alternative 3.

There is currently so much mis-use of the USFS land and no staff to enforce it's current approved FS road and trails. Much off FS trails/roads have been developed without the FS approval, that impact people and wildlife residing in the area.

Adding more trails/roads open to motor vehicles just locks out bicycles, horses (wildlife) and hiking as the two do not mix.

Thank you

Mary Rieger
