Comments: I do NOT support the Central Tongass Project as it is currently proposed. I do NOT wish to see any revisions or exceptions to the Roadless Rule. I do NOT support logging in old-growth habitats. I do NOT support the construction of any new roads in the Tongass.

I feel this way because I value the global rarity of this intact temperate rainforest. I believe this place has crucial roles as a haven for biodiversity, climate change adaptation, and the traditional ecological knowledge of human communities who depend upon this unfragmented wild habitat for their subsistence, health, and hope.
