Comments: The USFS should NOT impose the so-called Alternative 2 to limit access to the public forests anywhere in this country. The USFS is a servant of the PEOPLE of the United States of America! The USFS has no constitutional right to impose restricted access to public property, nor to enforce such unconstitutional restrictions! As a concerned citizen of the United States of America, and of the great state of Arizona, I say, "NO" to the USFS's "Alternative 2" proposal!
