Title:

Comments: I'm sorry but I believe the tax dollars I pay to provide federal jobs should not be resulting in any actions like this I live up here and that forest provides meat for my family when I draw tags to do such it provides wood to keep my family warm in the winter so hearing that the forest service is wanting to do any of the matter but maintaining and managing it is sickening I hope this does not pass I strongly want to see it managed and maintaining but not closed down to where I cant access where I please in my utv or truck to supply my family with the needs to survive and live in the white mountains I grew up in.
