Title:

Comments: I hope you don't hate me for just emailing you my comments[hellip] sorry! I am swamped and want to get this out ASAP[hellip]

My comments are just from a public user, they are not from my office.

Middle Fork unit 3- very opposed to the action prohibiting camping for favor of day use

unit 1 - very opposed to the action prohibiting camping for favor of day use

North Fork scenic segment- 3 parties is too low, should be increased slightly

South Fork unit 2- 3 parties is too low, should be increased slightly

Comment on all rivers/segments: from discussing this with friends and others there is VERY strong support in implementing/enforcement mandatory leave no trace, firepan, toilet systems (for all floaters), proactive measures

Access points: many put in/ take out areas are not large enough or need improvements to accommodate more people, Blankenship being the worst[hellip] this should be looked at closer.

Also, can you forward me the upper middle fork one pager? I didn't get it at the meeting!

Thanks for everything!

Rachel VandeVoort
