Title:

Comments: My only issue is enforcement. Or the complete lack thereof. I get so sick of walking almost a mile into an area that is "closed", only to find 5 vehicles parked in it and then have a dozen more drive through. After years of this happening, I am about to simply join them.

Please either keep the roads open or close them down! I don't think closing a road on a map while the road appears to be open and is marked with a FS# sign is ever going to work.
