Comments: RE: Apache Sitgreaves Management Plan #22692

I support sustainable use of our forest lands for all recreation purposes whether they be hiking, biking, horse back riding or motorized OHV travel. Too many closures have already happened in other areas that have reduced access to roads and remote locations especially compared to previous use levels. To continue closing areas and limiting public access will not generate any appreciation for our forests or wildlands if our children and fellow outdoor enthusiasts are unable to experience them first-hand. I recommend no action.
