Last name: Alpert

Organization:

Title:

Comments: I love mountain biking. It provides me my source of relaxation and release of my anxiety. I own a business in town and if it weren't for mountain biking I'd probably be on medication, but because of biking I can calm my nerves and find peace. Biking on these new trails would be a huge impact on my life and my kids. The current routes don't provide enough mileage and in the festival weekends they are crowded.
