First name: Justin

Last name: Corey

Organization: Natural Restorations

Title: Co-Founder and Director of Field Operations

Comments: I am strongly opposed to the closing of the 300 rd from the US60 to the 260.

This is a frequently used road for campers, explorers and outdoor recreation enthusiasts that is part of the long history of Arizona. The general public should not have access to our Historical and Outdoor recreation lands cut off.

If there are issues being caused by users of that area, it would be better to reach out to the many groups like ours at Natural Restorations and ask for assistance in maintaining the area instead of closing down more "public lands".
