Comments: The closure of the 300 road between the 60 and 260 will put a limitations in areas we can access while hunting and camping. By closing this road you will put more users and pressure on adjacent roads in the area. Every time I drive the 300 road past the turnoff to black canyon lake it's doeandr seem to be maintained very well so it can't be a cost issue. I would be interested why this is being considered. I've never seen the area being patrolled by forest service or Game and Fish if this closure is related to the forest being destroyed. With the population expanding in Arizona by closing this portion of the road you will put greater pressure on other areas already being over run. My vote is to keep it open and patrol more and give more citations to those breaking the law.
