Comments: I wanna know why any roads have to be closed? I use almost every road when I hunt whether it be get from point A to B or retrieve game.. I think it's ridiculous that the forest service forgot that the forest is ours, " We the People" I've lived in Springerville my whole life and in my opinion our forest is trashed because the forest service (back burns) yet nobody is ever held accountable.. I really hope that you take my opinion into consideration Thanks Sonny Tapia
