Comments: I use this road all the time. I'm sick and tired of losing access to my state. These are my lands as much as anyone else and nobody has any right to close roads like this!

Rim road can be found on topo maps as early as 1886 and cannot be closed per Arizona and federal law.

According to the Federal Land Management Act of 1976, Any roads built before 1976 fall under RS2477 which specifically says these trails must remain open to the public
