Comments: I would prefer alternative 3 mostly to reduce the traffic on 237b. I live near the pond there and 20 years ago ATVs could rip up the area. A fence was installed and signs put up but over time sections of the fence have been destroyed to allow larger vehicles and more and more do not pay attention to the signs to not ride around the pond. Let folks in the larger vehicles access the forest on old rim and wildcat. Please.

Thank you.
