Title:

Comments: In the early 70 my Dad built roads for the loggers, we lived in a logging camp called Chevlon Butte Ranger Station right next to us and we had a one room school house. Government took logging out and it cause the forest to overgrowth with no one cleaning the undergrowth Fuel for Fires. You close roads it will cause more problems for our wonderful forest. Please when I was little my dad on Sundays would always take us on a picnic somewhere on the Rim.

I love a cherish the rim and share it with my children and so on. Ashby is maiden name from Christopher Creek pioneers please dont close off roads and area's.
