Comments: I feel very strong about my opinion of the subject of closure of roads . There is simply not a reason to close roads used by the public for hunting or pleasure . We the people own state lands . We have a cabin in Forest Lakes that our parents built 40 years ago. The enjoyment that you are taken away from the people in closing this 25 miles is so wrong That road will lead you to the some of the most beautiful sights .Why would you take that from us?
