Comments: This is absolutely ridiculous! This is not YOUR land to take away, this is OUR land to use and enjoy. You cannot continue to limit access to OUR land. To close more forest roads is a complete abuse of power by the anti-everythings that have somehow found their way into lead roles. Anti-access, anti-hunting, anti-fishing, anti-ohv and just plain anti-fun! I personally think there is also laziness involved. The fewer miles of road open the less the forest service has to work. Heck shut all the forests down and you can collect your fat checks (Funded by WE THE PEOPLE ) and do nothing. USFS now stands for US Fun Suckers.
