Title:

Comments: This would be a travesty. That area of the rim is the escape for many of us who live in the valley.

Increase enforcement presence so the ones damaging the area can be held responsible. Don't punish the 99% for the actions of the 1%. I have camped off the 300 road for years. For the most part, I have only observed like minded people camping in the area. My hope is that it remains open.
