Comments: While I agree that Rim Road should stay open, the disadvantages greatly outweigh the benefits. I've hunted on the US 60 side and had to deal with speeding UTV's and trash. Also, concerning the law of keeping this road open and passable, I know of at least 3 sections of the entire road that have been purchased and closed to public travel. All of these sections are in the Pinetop-Lakeside area.
If they will not currently keep the road open, I seriously doubt that it will stay open much longer into the future.
