Comments: I don't think this is a good idea. This area is a place I have grown up in. I was born and raised in Arizona, and have spent many days and nights following this trail and hunting with my family. I am really frustrated with our State thinking they can keep shutting down areas because they no longer want to use our tax dollars to take care of it.

Rest areas area a great example. Instead of cutting dollars elsewhere, our politicians closed rest areas, some of which are still not open. Why, because it makes people angry is the only thing I can think of.

Please reconsider and find alternatives to closing this beautiful road and the forest with its beauty down from our residents. My children and grandchildren should be able to enjoy it too.
