Title:

Comments: My husband and I retired in Heber 7 years ago. As older people, we love traveling and exploring the woods with our friends several times a week. The trails we love, are the ones off the main, dusty roads. Many of our friends from Phoenix, also rent cabins in town, eat at the local restaurants, and spend money in our town. Closing trails will have a huge impact on those of us that live here, as well as those who travel up the mountain from the valley. It appears that this is just another ploy to take something from us, that our tax dollars pay for. Absolutely a BAD LIBERAL move, in a very Conservative area. Rldiculous move that will have repercussions.
