Title:

Comments: Please think about this. Closing these roads to motorized traffic such as 4x4 and atv's will effectively take this away from people like me. I am a Marine Corps and Law Enforcement vet, medically retired in 2016.

My back and feet no longer allow me to walk long distances anymore. If these roads are closed to ATV traffic I will not be able to enjoy a favorite portion of our beautiful state with my family.

I know I am not the only person in this type of position.

Thank you for your consideration.
