Comments: Please accept this letter as my support for the Sage Hen Motorized Trail #56766. I think that this trail will provide important and much needed opportunity for motorized recreation. As a link to the Rim Rocker Trail it creates opportunities for people to connect from the Cortez/Dolores area all the way to Moab and will bring in important economic benefits.

The only concern that I have is the proximity to the non-motorized Sage Hen bike trails. Sometimes the motorized traffic will cross over to non-motorized trails if the trails intersect or are very close to each other. If the trail is created in a way to minimize this opportunity and signed so that it is clear where the trails are motorized and non-motorized, I think this issue can be minimized.
