First name: Greg

Last name: Dowdy

Organization:

Title:

Comments: After a thorough review of the information provided within this solicitation, I have some cause-effect relationship comments.

* Road reduction, any routes that provide connecting loops from one drainage to another are desirable, this area has many of them. These travel opportunities should remain and possible improved.

* Treatment Options, please do not be conservative with options such as prescribed fire and sanitation / salvage cut.

* Implementation, please don't delay or narrow the scope of this project, this work is overdue and it would be a disappointment to see it reduced.

I am a lifelong resident of Ravalli County, a property owner within this project bordering the National Forest, in an area of high crown fire potential.

Thank you for the opportunity to comment.

Please notify me of any public meetings regarding this project.
