Title:

Comments: I fully support this project #56748 developed by our local Rico Trails Alliance! I understand that the Rio Grande Southern trail will provide some of the only beginner-level, family-friendly access in the Rico area. The trail will also provide safe on-trail access from Rico to other popular area trails including Salt Creek. Please approve this RTA project! They are a highly respected local and home grown organization dedicated to thoughtful trail maintenance and development in our Rico area. Thank you!
