Comments: Please leave the roads on the rim open. We love that area because of its beauty. We like that we can explore all the roads on thr rim and find a quite, private spot to camp even on a busy weekend. More people in the valley have found out about the beauty of the area and all deserve to enjoy it. If you close off roads it will be more cramped and less enjoyable. We were married up there, off one of the less travelled roads and we like to go back every year for our anniversary. We have been camping up on the rim since the 70's
Please please leave the roads open. Thank you
