Comments: This section of road / trail is one of the prettiest and scenic ones in our State. I spend a lot of money in licensing my OHV vehicles to maintain these very places. We can not be taking our History away from the next generation of Arizona's. This road / trail has been around for a very long time and traveled by many who have funded it over the years... please! Give time to think about the money that the States collect from Us, and how it's suppose to be used. In my opinion, I don't pay all these fees to have roads / trails closed permanently to the public. Thank you very much!
